Friedman and Money in the 1930s
Frank G. Steindl

There is a veritable industry concerned with the nature of monetary analysis at the University of Chicago in the 1930s. To a large extent, discussion of that analysis parades under the rubric of "oral tradition," due to the opening, largely incidental, comments of Milton Friedman (1956) in his essay, "The Quantity Theory of Money: A Restatement."¹ Rather than retrace the steps of that disputatious odyssey, it is sufficient to acknowledge the collection assembled by Robert Leeson (2003) titled *Keynes, Chicago, and Friedman*, and in particular Leeson's own summary essay in that work. It is there that Leeson reports his findings of an "oral tradition" of a quantity theory of money link. Leeson refers to notes taken by Friedman in Lloyd Mints's graduate lectures in the course *Money and Banking* in the fall quarter of 1932, in which Mints systematically
